

Product description

There are standard shop Styles available for uTypia business 6, uTypia consumernext and uTypia page.

This add-on is needed if a customer requests a specific Shop Style (color style). According to our customers needs (e.g. CSS styles, colour codes) we can adapt the colour values and buttons to make an own specific style.

Included

Adaption of the shop colors to a color schema wanted by the customer for one uTypia product (consumernext, page or business 6)

Exclusive use of the color-style for 3 years.

Maintenance of the color-style for future version of this uTypia product for 3 years.

Use of this color-style for all shops of this shop-owner (of this uTypia product)

Not Included

Changes of the page layouts (menu on the right instead on top, different footer)

Target group

uTypia shopowners that have specific requirements for a shop style
