

## Product description

There is an uTypia add-on Module "coupon code" that allows the shop-owner to create and manage coupon codes for unlimited products and discounts himself.

In the case that the shop-owner does not want to do or cannot do this himself he can purchase this uTypia service "configure coupon code". Then the utypia support will establish one coupon code or coupon code range for the shop-owner. The coupon can be valid for the whole catalog, only certain categories or products – during a certain date range and give a specific discount.

## Included Service

- Configuration of the coupon code
- Sending the valid coupon codes to the shop-owner

## Not Included

- Sending the coupon codes to end customer
- Any marketing activities

## Prices/conditions

### One-time fee – per defined coupon
